Project Title: *In the Mood for Love* Website

I'd like to build this site as multiple pages, with a starting landing page that displays each topic to be discussed about the movie *In the Mood for Love*. There should be a navigation page at the top, and each page will have several images that set the tone and atmosphere of the movie.

- **Home Page/Introduction** – Introduce basic points of the 2000 Hong Kong movie and sets a warm and intimate atmosphere based on the cinematography. May include some iconic lines from the movie.

- **Plot** – Describes the general plot of the movie.

- **Cast** – Introduces the main cast and specifically the legacy and popularity of the two leads (Maggie Cheung and Tony Leung)

- **Production** – Describes the setup of the production and duration it took. Includes the main directors and producers and their work.

- **Reception & Legacy** – Explains how Hong Kong and the world received the movie, as well as how the cinematography inspired a long list of movies to come.

- **Gallery/Cinematography** – Maybe an extra page that just includes clips and images from the movie to help demonstrate the intimacy of the movie.

- **Sources** – this page will just list sources, including the Wikipedia page, as well as other sources for photography, and any other credits that need to be provided.
